Applies to the Chief of Police for Aid. But Is Given No Comfort.

Mrs. Nancy Jane Miller, the aged and infirm woman who made herself few months ago by continued appeals for protection from her husband, appeared once more at central station this morning and asked Chief Wyman to give her further aid. For some unknown reason she wants to get a duplicate of her marriage license from the Beaver county courts.

The woman seemed more demented than upon her former visits and is in a rather deplorable condition. Her life during the past two months has been full of tribulations and a hard one. Her husband deserted her at their home in Calcutta, leaving her to provide for herself. Since that time she has had a very hard time in subsisting, working as a domestic in various homes in this city, when she really should have more dejected than ever.

Hurrying from the street car track to his home in Dry Run at a late hour Saturday night. Ralph Wright, a young married man, failed to hear the approach from the rear of three desperate bandits and before he was able to put forth any defense a heavy blow on the back of his head sent him sprawling to the ground, where he lay for more than two hours. While unconscious his pockets were rifled and evidence points to the fact that he was struck again, the bold thugs wishing to make a complete job of their nefarious undertaking.

### \*\*\*\*\*\*\* THE MADDOCK COLLECTION.

President Thomas, of common council, and other city officials, a number of local manufacturers and other prominent citizens, were given a private view of the Alice Maddock collection of ceramics in the Art school auditorium last night by the directors of the school, preliminary to the formal opening of the collection of public view tonight.

All those present expressed warm commendations of the collection. The attractive manner in which the china is displayed received high praise also. The special electric lights which have been installed in front of each case, showed every piece of china to the best advantage. Neat nickel plates containing the words "Maddock Collection" have been put on each case.

The collection consists of more than one thousand pieces, many of them rare. Six hundred are English, dating from the beginning of the last century. These are mostly specimens of the rich blue prints of the then prominent Staffordshire potteries.

The ceramics were collected by the late Mrs. Alice Maddock, of Manhattan, and were, shortly before her death, presented by her to the city of Tren-

After being formally accepted by the city authorities, the Art school was selected as the custodian of the collection, and when the china arrived here last summer it was turned over to the school

Then the handsome cases were designed and ordered, and preparations were commenced at once for the installation of the exhibit.

The collection for many years occupied a prominent place in the home of Mrs. Maddock, 18 Lafayette Place, New York. The walls were covered with plates and platters from floor to ceiling. Quaint old pitchers and jugs were suspended from the edges of shelves, while cabinets contained the choicest pieces.

Mrs. Maddock was a lover and collector of china all her life. She was in touch with all the collectors and by a system of exchange of duplicates the collection grew steadily. Mrs. Maddick traveled most constantly during the later years of her life, and was such a connoisseur that she knew directly she saw a piece of china the approximate value of it.

Steamer Has Rough Experience. London, Dec. 14.-The Atlantic line steamer Menominee from London, Dec. 3, for New York, which put into Falmouth, reports that she encountered heavy gales and that when 560 miles west of the Scilly islands, Dec. 7, she had a terrible experience. Huge waves broke over the vessel, one wave smashing the rudder head and rendering the ship totally unmanageable. After the storm had somewhat abated the crew endeavored to make temporary repairs, but the Menominee drifted at the mercy of the sea for several days, it being impossible to steer her, and she was driven back within 360 miles of the Scilly islands. Temporary repairs were eventually effected and Captain Lucas decided to return to the nearest port. Tugs were sent from the Lizard to assist the Menominee, but she steamed to Falmouth unassisted It is reported that the passengers are

Ministers Absent.

Three Wellsville ministers will be bsent from the city this week in attendance at meetings of their respective denominations. Rev. L. F. Laverty and Rev. C. L. V. McKee will be in Toronto at the meeting of the Steuberville presbytery there and Rev. W M. Glasgow at Steubenville at the meeting of the Steubenville presbytery of the United Presbyterian church. The latter is a special meeting.

### Revival Meetings.

The Methodists of Wellsville are preparing for a series of revival meetings which will begin soon and continue indefinitely. This yearly feature of Methodist church work is the most important of the year and the pastor, Rev. J. W. Toland, and members of the church are preparing for a big revival movement.

### THE WAGE QUESTION. Carroll D. Wright Predicts a New

Labor System. Philadelphia, Dec. 14.—"The wages system will pass away. In its stead, believe, there will come a system which will be composed of the profit sharing and co-operation ideas. The great labor question means the struggle of humanity for a higher standard of life. The employer must consider his employe, as well as the stockholder, as an investor."

These words were contained in an address upon "The Wage Question," made by Carroll D. Wright, United States commissioner of labor, before the Society of Ethical Culture.

Of scarcely less interest than his prediction of a new labor system was vancing age. The German idea was quoted, under which the employer pays one-fourth the cost of a sick and death benefit policy, the employe onefourth and the government one-half. "England," said Colonel Wright

"has taken up this question, and we of the United States are steadily approaching it.'

Accident Occurs on Steep Grade-Trainmen Carried Down With Engines and Cars-Several of Injured May Die-Traffic Blocked

Piedmont, W. Va., Dec. 14.-Five men were killed and several severely injured by the overturning of two engines attached to a heavy Baltimore and Ohio freight train on the 17-mile grade, near this city.

The Dead. Engineer Ernest D. Ervin, 28 years old, Cumberland, Md. Engineer Emery Ervin, aged 56, Tunnellton, W. Va.

Fireman Walter B. Nine, aged 32, Terra Alta, W. Va. Fireman J. V. Carter, aged 28, North Carolina (boarded in Cumberland). Brakeman John Hays, 23, Staunton, Va.

Seriously Injured. Engineer Michael J. Gibbon, 30 years old, Cumberland, Md.; fatally hurt. Fireman E. C. Buckley, Terra Alta, W. Va.; legs, arms and head cut and

bruised. Brakeman B. F. Bolinger, Grafton, W

Va., seriously crushed. While descending the 17-mile grade the train to which were attached two engines left the track. The engines and nearly all of the 24 loaded cars tumbled into a deep ravine, carrying the trainmen with them. The tracks were torn up for nearly a hundred yards, but it is thought that traffic will be resumed soon.

Survivor's Story. Fireman Buckley, who was deadheading east with Engineer Ervin, is the only man who was on the front end of the train who escaped to tell the tale. He says the airbrake failed to work coming down the grade and the heavy train was soon beyond control of the engineers. When Engineer Ervin whistled for brakes he left the engine to assist the brakemen, and had put down the brakes on four cars when the crash came. Buckley was thrown high in the air against the telegraph wires, which tore his face and chin.

Germ Infected Air.

Malaria is not confined exclusively to the swamps and marshy regions of the country, but wherever there is bad air this insidious foe to health is found. Poisonous vapors and gases from sewers, and the musty air of damp cellars are laden with the germs of this miserable disease, which are breathed into the lungs and taken up by the blood and transmitted to every part of the body. Then you begin to feel out of sorts without ever suspecting the No energy or appetite, dull headaches, sleepy and tired and completely fagged out from the slightest exertion, are some of the deplorable effects of this enfeebling

malady. As the disease progresses and the blood becomes more deeply poisoned, boils and abscesses and dark co yellow spots appear upon the skin. When the poison is left to ferment and the microbes and germs to multiply in the blood, Liver and Kidney troubles and other serious complications often arise. Accident Occurs on Steep Grade-Trainmen Carried Down With Engines and Cars-Several of Injured May Die-Traffic Blocked

Piedmont, W. Va., Dec. 14 .- Five men were killed and several severely injured by the overturning of two engines attached to a heavy Baltimore and Ohio freight train on the 17-mile grade, near this city.

The Dead. Engineer Ernest D. Ervin, 28 years old, Cumberland, Md. Engineer Emery Ervin, aged 56, Tun-

nellton, W. Va. Fireman Walter B. Nine, aged 32, Terra Alta, W. Va.

Fireman J. V. Carter, aged 28, North Carolina (boarded in Cumberland). Brakeman John Hays, 23, Staunton, Va. Seriously Injured.

Engineer Michael J. Gibbon, 30 years old, Cumberland, Md.; fatally hurt. Fireman E. C. Buckley, Terra Alta, W. Va.; legs, arms and head cut and bruised.

Brakeman B. F. Bolinger, Grafton, W.

Va., seriously crushed. While descending the 17-mile grade the train to which were attached two engines left the track. The engines and nearly all of the 24 loaded cars tumbled into a deep ravine, carrying the trainmen with them. The tracks were torn up for nearly a hundred yards, but it is thought that traffic will be resumed soon.

Survivor's Story. Fireman Buckley, who was deadheading east with Engineer Ervin, is the only man who was on the from end of the train who escaped to tell the tale. He says the airbrake failed to work coming down the grade and the heavy train was soon beyond control of the engineers. When Engineer Ervin whistled for brakes he left the engine to assist the brakemen, and had put down the brakes on four cars when the crash came. Buckley was

# TRAIN'S WILD PLUNGE MALARIA

Germ Infected Air.

Malaria is not confined exclusively to the swamps and marshy regions of the country, but wherever there is bad air this insidious foe to health is found. Poisonous vapors and gases from sewers, and the musty air of damp cellars are laden with the germs of this miserable disease, which are breathed into the lungs and taken up by the blood and transmitted to every part of the body. Then ou begin to feel out of sorts without ever suspecting the No energy or appetite, dull headaches, sleepy and tired and completely fagged out from the slightest exer-tion, are some of the deplorable effects of this enfecting malady. As the disease progresses and the blood becomes nore deeply poisoned, boils and abscesses and dark co vellow spots appear upon the skin. We tested this product for years in the most difficult germ diseases; then we bought these rights for the highest price ever paid for a scientific discovery. We paid that price because Liquozone does what all the skill in the world cannot do without it. Any drug that kills is to help Nature overcome the germs, germs is a poison to you and it cannot be and such results are indirect and untaken internally. The best physicians, germ disease.

Liquozone is simply liquid oxygen—no drugs, no alcohol in it. It is the discovery of Pauli, the great German chemist, who spent 20 years on it. His object was to get such an excess of oxygen.

Liquozone—liquid oxygen—is the only product that can kill germs in the body without killing you. No man knows any other way to destroy the cause of any germ disease.

It is new to America, and millions who need it don't know of it. For that reason we make this remarkable offer. We will buy the first bottle and give it to you if you need it. We will do it willingly, gladly, to convince you at once and for-place in the blood that no germ could live in any membrane or tissue.

Liquozone does that. The results are so certain that we publish on every bottle and offer of \$1,000 for a germ that it cannot kill. Yet oxygen is Nature's greatest tonic—the very source of your vitality. Its effects are exhilarating, purifying, the results of impure or tissue.

He was taken to city hall, but was released later upon giving security for the settlement of the bill.

Coldest of the Winter-It was the coldest night of the winter. Some thermometers registered two or three degrees below zero and some two or three above, a good deal depending where the thermometer was located. There was a fierce windstorm Saturday evening, followed by a snow and blizzard. Last evening it began growing colder early and the mercury fell steadily all night.

A Sunday Fire-A small fire Sunday at the Hoskins home on Fenton street caused considerable alarm in that vicinity for awhile. The fire department was called, but was not needed, the flames being extinguished by a bucket brigade. The fire was caused by the failure of Mr. Hoskins to shut off the gas from a pipe which he had disconnected. A match struck near the pipe ignited the gas and for a few moments the fire raged fearfully. The damage was slight and no one was hurt.

Tunnel at Cedar Hill Will Not Be Built-Live News from the Coal Town.

Salineville, December 14.—(Special.) -The C. & P. company, since it decided to curtail expenses on the double track, has made many changes in the vicinity of Salineville. It was the original survey to pass the Slope mine by coming through a deep cut on the Kirk farm, thus taking out a big curve at Hayti. Some timber was taken from the right of way and the road was engaged in moving the fences when the order came to abandon the work. At the Cedar Hill mine, one mile below town, it was the intention to tunnel through a hill and allow the creed to pass through the tunnel, thus saving two bridges' to construct and keep up. Some delay was experienced in getting the land in question and it is now probable that the company will abandon this part of the work, for a time at least. Frank Osborne, president of the Big Vein Coal company, owns the strip of ground that the tunnel would pass through and has sold what the company wants. The Cedar Hill mine will be compelled to move its coal tipple and several houses it has biult if the railroad goes back to its original plans.

Young Men Adrift on Cake of Ice Rescued, Only to Die by Drowning.

ROWBOAT SWAMPED BY SQUALL

Heroic Rescuer Saves Himself by Clinging to Vessel Until Help Arrived-Others Go Down in Icy Waters and Do Not Reappear.

Middleboro, Mass., Dec. 14.-After being blown more than half a mile over the surface of Lake Asdawamp sett on a piece of ice which had broken away from the shore while the men were standing upon it, Harry Haskins, aged 22, and Frank Allen, aged 26, were rescued from their dangerous position by S. A. Lewis who rowed out to them, only to lose their lives by drowning when the boat was swamped by a squall. Lewis clung to the craft and was rescued.

During the day the ice had been gradually breaking up under the force of a strong northwest wind, but it still held firmly near the shore. The young men ventured upon it and when they were a short distance from the shore the ice broke and they found themselves adrift on a cake not more than 10 feet long and three feet wide. The ice cake, driven by the strong wind, was soon a long distance out and rapidly moving toward the center of the lake.

Lewis, who was passing along the shore, secured a boat and rowing out took them off. The wind, which had increased in volume, was now blowing furiously. Suddenly a heavy squall struck the boat and before she could be righted the occupants were precipitated into the water. Lewis managed to grasp one of the gunwales and hold on until rescued, but the others sank and did not reappear.

Will Call Miners Out.

Altoona, Pa., Dec. 14.-National Secretary William B. Wilson and district officers of the United Mine Workers at a conference held here, decided t call a strike of the miners employed by the Somerset Coal company on Wednesday because of a reduction of 121/2 per cent in their Awages. The

company has 16 thines at the bitumic-ous fields of western Pennsylvania. It is not known whether the miners will obey the order, as many of then would rather continue at work during the winter at reduced wages than re main idle.

Owed a Board Bill - A Greenfield was arrested Saturday night while he was at the passenger depot waiting for a train to bear him out of the city. Officer Pat Woods took him in charge at the request of Mrs. Floyd Chapman, who said he was attempting to beat his mother out of a board bill. He was taken to city hall, but was released later upon giving security for the settlement of the bill.

Coldest of the Winter-It was the coldest night of the winter. Some thermometers registered two or three degrees below zero and some two or three above, a good deal depending where the thermometer was located. There was a fierce windstorm Saturday evening, followed by a snow and blizzard. Last evening it began grow. ing colder early and the mercury fell steadily all night.

A Sunday Fire-A small fire Sunday at the Hoskins home on Fenton street caused considerable alarm in that vicinity for awhile. The fire department was called, but was not needed, the flames being extinguished by a bucket brigade. The fire was caused by the failure of Mr. Hoskins to shut off the gas from a pipe which he had disconnected. A match struck near the pipe ignited the gas and for a few moments the fire raged fearfully. The damage was slight and no one was hurt.

Going to the Alleghenies - Alex Baker, of the firm of Baker & Funkhouser, of this city, returned Saturday evening from Millport, Pa. Mr Baker has been engaged for some weeks in buying timber for the Pittsburg Sash & Door company, of that city. Tomorrow he proposes to take back to the Allegheny mountains some 15 or 20 men from this section, who will be engaged in cutting timber during the entire winter. Mr. Baker reports eight inches of snow in that section at present.

IMPORTANT PROJECTS AT SALINE. VILLE ABANDONED.

Tunnel at Cedar Hill Will Not Be Built-Live News from the Coal Town.

Salineville, December 14.—(Special.) -The C. & P. company, since it decided to curtail expenses on the double track, has made many changes in the vicinity of Salineville. It was the original survey to pass the Slope mine by coming through a deep cut on the Kirk farm, thus taking out a big curve at Hayti. Some timber was taken from the right of way and the road was engaged in moving the fences when the order came to abandon the work. At the Cedar Hill mine, one mile below town, it was the intention to tunnel through a hill and allow the creed to pass through the tunnel, thus saving two bridges' to construct and keep up. Some delay was experienced in getting the land in question and it is now probable that the company will abandon this part of the work, for a time at least. Frank Osborne, president of the Big Vein Coal company, owns the strip of ground that the tunnel would pass through and has sold what the company wants. The Cedar Hill mine will be compelled to move its coal tipple and several houses it has biult if the railroad goes back to

its original plans. Local interest is somewhat agitated concerning the officers of the new anking institution that will soon open here. Those who are directing inter ested are not giving out any information as to who will probably be in charge and the citizens are greatly
